

DO SOMETHING

Part 3: Devine Math

November 15, 2015

Scripture: Mark 6:30–44; John 6:1–13

How do we do awesome things?

Never underestimate the power of a _____ idea when _____ puts his hand on it!

Your role in solving big problems:

_____ what you _____ to _____

The Bottom Line — Devine Math

My _____ + God's _____ = _____

My _____ + God's _____ = _____

Talk It Over

1. What's one idea from the message that really stood out to you? Why did this idea grab your attention?
2. Has being reminded of how rich we are changed your outlook on life or made you feel more grateful over the last couple of weeks? If so, tell about a specific situation where it came to mind. If not, why not?
3. The suggestion that 5 loaves and 2 fish could feed thousands of people seems like a 'dumb' idea. Tell about a dumb idea that you have had. How did it turn out?
4. There are a lot of 'big' problems in the world, but is there one in particular that regularly bothers you? In other words, if you could solve only one of the 'big' issues—which one would you choose? Why does that particular problem stir you?
5. In this account (John 6:1-13), the boy simply brought his lunch to Jesus and then Jesus did something amazing with it. What would it mean for you to "pack your lunch" on a daily basis?
6. Read Matthew 25:14-30. What does this parable add to the idea of bringing what we have to Jesus?
7. When was the last time you were amazed by something God did in your life? In the church? In the world?
